

## **Our Values' Statement**

**To help people and nature to thrive together, we provide and maintain natural habitats, improve access to nature, and create opportunities for people to be involved in helping the natural world.**

**We have a commitment to ensuring that everything we do contributes to building a sustainable planet.**

**We are determined to play a positive role locally and aspire to connect and inspire people.**

**We welcome all and are here for everyone – we wish for our volunteer opportunities and sessions to be welcoming to all, inclusive, and friendly.**

**We are mindful to be respectful of each other and to be kind, whatever our circumstances.**

**We care for people and places as we believe they need each other to survive and so join with like-minded people and organisations to improve green spaces for people and for nature.**

**We aim for our teams to gain skills, knowledge, and confidence and for us to explain the purpose of volunteer activities clearly.**

**We are all responsible collectively for being safe and healthy. We prepare and respect risk assessments and share information to achieve this.**

**We aim to achieve something useful and sustainable – and to also have a good time.**

**We welcome discussion and feedback.**
